**Product Name: Instasafe Secure Access (ISA)**

**Any Release Recommendations to End User or Customers: None**

### Feature Enhancements Released

1. **Send email to the Admin as well as the user for the inactive user auto suspend and delete**  
Emails will be sent to the admin as well as the user for automatically suspended and deleted inactive users.

### Bugs Fixed

1. **The NEXT 10/30/50 Button is enabled under various modules in the admin console even if the logs are not more than the selected number that is 10, 30, 50**

The NEXT 10/30/50 Button is disabled and Admin will not be able to navigate to the next page if the logs are not more than the selected number.

Severity: Low

2. **A user is unable to login to the console when disabled/deleted from the Sub Admin Role**

Users will be able to log in to the console when they are disabled or deleted from the sub-admin role because their user profile is active in the console.

Severity: Low

3. **Appropriate logs are not generated for both Bulk activity & Manual Activity on Devices**

Separate logs will be generated in event logs for manual and bulk Active/Suspend & Delete Devices.

Severity: Low

**4. Logs should be generated for users created, suspended and reactivated after the AD sync**

Separate logs are generated in event logs in the console for created, suspended and reactivated users after AD sync.
